

Orange County Agricultural Commissioner and Sealer of Weights and Measures

November 20, 2024

To whom it may concern,

The Orange County Office of the Agricultural Commissioner/Sealer of Weights and Measures will be undergoing construction of our submeter testing laboratory to install a new water submeter test bench. The new test bench will improve our capacity to provide required services. We will continue to test water submeters during construction utilizing our existing bench. However, we would like to advise our customers that water meter testing may experience delays during the construction period. We request our stakeholders not to ship any water submeters to our office until given authorization to do so, using Form WM 1003, attached or available online at <https://ocerac.ocpublicworks.com/> under Forms. Due to space limitations, any shipment of water submeters sent to our office will be rejected if not preapproved by our staff. We understand and apologize for any inconvenience this temporary construction may have on residents and businesses. However, alternative testing resources are available. You may contact other county weights and measures departments for availability to provide testing and certification services. Please note out-of-county testing fees may apply. We estimate that construction work will be completed by March 2025.

Weights and Measures Offices

Los Angeles County Weights and Measures Bureau
 12300 Lower Azusa Road
 Arcadia, CA 91006-5872
 Phone Number: (626) 575-5451
