

Orange County Agricultural Commissioner & Sealer of Weights and Measures

## **Your Information Matters — Help Us Support Local Agriculture**

The Orange County Agricultural Commissioner's Office is requesting your assistance to update information from all County producers. Your participation is vital. By providing data about your agricultural production, you directly contribute to critical assessments, funding opportunities, and policy decisions that affect the industry.

### **Why Your Response Is Important**

- **Ensures Accurate Valuation of Agriculture in Orange County**  
Without your input, we cannot accurately determine the overall value of local agricultural production.
- **Supports Emergency Declaration Funding**  
Reliable data is essential for quantifying financial losses and securing state and federal assistance during disasters or emergencies.
- **Demonstrates Agriculture's Importance Locally**  
Your information helps remind the public and decision-makers that agriculture remains one of Orange County's most important and enduring industries.
- **Informs Policy Decisions**  
Elected officials use agricultural data when shaping policy, resource allocation, and long-term planning.
- **Guides Lending and Government Programs**  
Banks, lending institutions, and government agencies rely on verified agricultural data when evaluating farm loans and support programs.
- **Helps Track Trends and Emerging Issues**  
Data provides insight into crop changes, market challenges, land-use pressure, and other factors that influence the future of agriculture.

### **Your Privacy Is Protected**

All data provided is **kept strictly confidential**. Only summarized, anonymous information is published. Individual or specific details are **never** disclosed.

### **How to Respond**

Please submit your production information by February 20, 2026. If you have questions or require assistance, contact the Orange County Agricultural Commissioner's Office.

Thank you for your contribution to sustaining and protecting Orange County agriculture.
